Canon

imagePROGRAF TX Series

More Than Just the Fine Line

- Scan-to-Copy/File/Share Solutions Available
- Speeds up to 3.3 D/min
- Security features to help protect your work

PRODUCTION AND FLEXIBILITY FOR YOUR BUSINESS

The imagePROGRAF TX Series is a versatile large-format printer designed for production in the aqueous inkjet market. With the flexibility to print line drawings, renderings, and posters, this series offers a comprehensive solution for businesses that need both technical and graphic output.

36” TX-3300

44” TX-4310 MFP Z36

MARKETS & APPLICATIONS

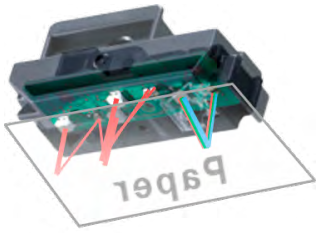

imagePROGRAF TX-3300 SERIES AND TX-4300 SERIES

Speeds up to 3.3 D-size prints per minute.*

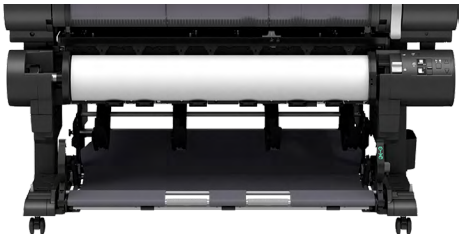

Intelligent Media Handling
Once the media is loaded in the device, the printer will automatically find the leading edge and feed the media. From there, the imagePROGRAF TX Series will automatically determine the media type, length, and width, which will be shown on the display panel.

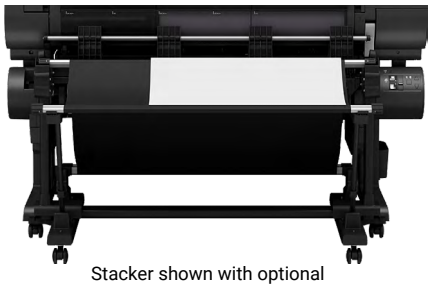

5-Color LUCIA TD Pigment Ink System
Updated Matte Black ink helps to produce crisper lines, sharper text, and vibrant posters on plain paper when compared to the previous TX series.

Optional Multifunction Roll Unit can be used to add a second roll or as a take-up reel.

TX Stacker
Holds up to 100 D-size sheets of plain paper.

Stacker shown with optional Multifunction Roll Unit

Sub Ink Tank System
The gravity-fed ink tanks allow for virtually every drop of ink in the tank to be used. Plus, you can change inks on the fly, while the printer is printing.

** 3.3 ANSI D prints/minute speed measured after first print in Fast Q5 mode, using plain paper. Print speed is based on internal testing. Print speed may vary depending on the number of copies selected, as well as on the settings for size, type, and orientation of paper.*

HELP PROTECT YOUR WORK

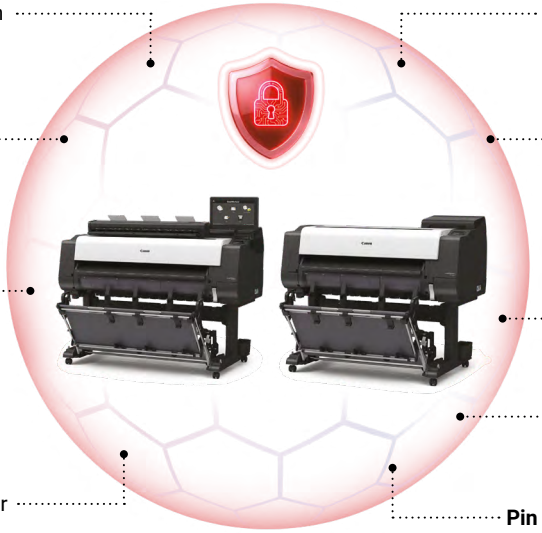

The TX Series has security features built in for peace of mind for your workspace.**

Secure Boot: Automatically restore known good BIOS if BIOS tampering is detected.

Secure Event Log: A system for centrally managing and analyzing IT device logs and monitoring for abnormal events.

Pattern Printing: Uses hidden background designs, tiny tracking dots, or specific geometric arrangements to help prevent document fraud, unauthorized copying, and counterfeiting.

TLS 1.3: Encrypts the data sent between your computer and the printer helping to block unauthorized users from reading confidential print jobs or network settings.

SNMP v3: Monitor and manage the printer over a network using encryption and user authentication.

802.1X: Acting as a digital gatekeeper to help block unauthenticated devices from connecting to your device.

HDD Secure Erase

HDD Encryption

Pin Code Authorization

TX SERIES INK SETS

Users can mix and match ink tank sizes depending on their printing needs.

The TX-4300 Series ships with a FULL SET of 330ml ink tanks!

NEW 36” TX-1300 MFP Z36

Introducing the 5-color imagePROGRAF TX-1300 MFP Z36 large-format printer. Designed for mid-volume printing but combined with a high volume Z36 scanner and the editing power of SmartWorks Software. The TX-1300 MFP Z36 is an excellent option for small spaces, without sacrificing speed and functionality.

1. Full front operation for ease of use.
2. Flat top design allows for simple media loading.
3. Print speeds up to 3.2 D-size prints/min.
4. 36” Z36 Scanner with 15.6” touchscreen and SmartWorks Software.
5. 5-Color LUCIA TD Pigment Ink System with the ability to hot-swap ink tanks.
6. The flat stacking basket allows for users to neatly stack drawings.
7. Compact design.

imagePROGRAF TX-3310/4310 MFP Z36
SCANNER WITH SMARTWORKS SOFTWARE

Copy/Scan up to
13 ips B/W
6 ips Color
